

# Free Professional Development

*...sincere thanks for encouraging and inspiring the next generation to engage with engineering through the spaghetti bridge competition. I know our lads really appreciated the opportunity. See you all again next year."*

To support the Spaghetti Bridge Competition, teachers are invited to a FREE professional development workshop. Engineers from the Department of Transport and Main Roads and TELG staff will provide insights into the physics and engineering of bridges, and tips and resources to support successful implementation of the Competition in your school.

The competition is a fun and challenging opportunity for students to test their engineering skills and experience the planning, creativity, problem solving and team work required for a career in engineering.

Proudly supported by the Department  
of Transport and Main Roads

**PD – Wednesday 2 May 2018**

Engineering House, Spring Hill, Brisbane

James Cook University, Townsville

Both workshops: 4.00 pm – 5.30 pm (refreshments provided)
